**Note 1:** Annual figures derived from audited consolidated financial statements which are available in our Form 10-K filings at SEC.GOV.

**Note 2:** The non-GAAP measures presented should not be considered a substitute for the financial results and measures determined or calculated in accordance with GAAP.

See Appendix I for more information and a reconciliation of GAAP to non-GAAP Financial Measures

**Note 3:** As required by ASC 260, Earnings Per Share, the share and per share amounts in the condensed consolidated financial statements for the periods presented above have been retroactively adjusted to reflect the warrant dividends issued in July 2025.

## EBITDA and Adjusted EBITDA

**EBITDA and Adjusted EBITDA Reconciliation** - Below we provide a reconciliation of GAAP net loss attributable to Enovix to EBITDA and adjusted EBITDA for the periods presented (unaudited) (in thousands). We define EBITDA as net loss attributable to Enovix adjusted for interest expense, income tax benefit, depreciation and amortization expense. Adjusted EBITDA includes additional adjustments to EBITDA such as stock-based compensation expense, change in fair value of common stock warrants, inventory step-up, impairment of equipment, certain legal costs related to our defense of an ongoing securities class action complaint that is outside the ordinary course of business and that we do not consider representative of our performance, and other special items as determined by management which it does not believe to be indicative of its underlying business trends. These non-GAAP measures may differ from similarly titled measures used by other companies.

**Free Cash Flow Reconciliation**

We define Free Cash Flow as net cash used in operating activities less capital expenditures, net of proceeds from disposals of property and equipment, each as reported in our consolidated statements of cash flows. Free Cash Flow is a non-GAAP financial measure and should not be considered an alternative to cash flows from operating activities as determined in accordance with GAAP.

We believe Free Cash Flow is a useful measure for investors because it provides insight into the cash generated or used by our operations after funding capital expenditures, and it helps assess our ability to pursue strategic growth initiatives. We use Free Cash Flow internally to evaluate performance, support decision-making, and measure our progress toward profitability and cash flow breakeven.

This non-GAAP measure may differ from similarly titled measures used by other companies.

Below is a reconciliation of net cash used in operating activities to the Free Cash Flow financial measure for the periods presented (unaudited) (in thousands):

**Non-GAAP Financial Measures**

This financial supplement includes the use of non-GAAP financial measures, which are intended to provide supplemental information regarding our performance. These non-GAAP measures include non-GAAP cost of revenue, non-GAAP gross profit (loss), non-GAAP gross margin, non-GAAP research and development expense, non-GAAP selling, general and administrative expense, non-GAAP operating expenses, non-GAAP operating income (loss) from operations, EBITDA, adjusted EBITDA, non-GAAP net loss attributable to Enovix shareholders, non-GAAP earnings (loss) per share, free cash flow, and other non-GAAP measures that are included in this financial supplement.

We use these non-GAAP measures to supplement our financial reporting and to evaluate ongoing operations and results, facilitate internal planning and forecasting, and assess performance against prior periods, industry peers, and the broader market. These non-GAAP measures are not prepared in accordance with generally accepted accounting principles (GAAP) and should not be considered as an alternative to GAAP results. Industry peers and other companies may calculate similar non-GAAP measures differently. Non-GAAP financial measures have limitations, including but not limited to, that they exclude certain expenses that are required under GAAP, which adjustments reflect the exercise of judgment by management. We believe that these non-GAAP measures, when considered together with the GAAP results, provide investors with an additional understanding of our operating performance. Reconciliations of each non-GAAP financial measure to the most directly comparable GAAP financial measure can be found in the tables in this financial supplement.
